Product disclosure statements (PDSs)

If a particular product (other than listed securities), a platform, wrap account or master-fund, a managed fund or a similar product is recommended to you, your adviser must provide you with a PDS for that product.

The PDS contains the information needed to make an informed decision about acquiring a product.

The PDS documents detail costs and product fees including commissions, and is usually created by the financial institution providing the product.

Getting started with Awhina Financial

Getting started with Awhina Financial is easy. Simply contact your Adviser to arrange a meeting.

To ensure that this meeting covers all aspects of your financial management, we ask that you complete a fact find document. Ideally, this should be done a few days before you meet with your adviser. This gives them the opportunity to review your information and prepare well ahead of the initial meeting.

The fact find asks for an extensive amount of information and it may take time to gather it.

A copy of the most recent accounts and tax returns for yourself and any related entities such as trusts or a self-managed superannuation funds would also be greatly appreciated.

Please provide your adviser with any other information that you feel is relevant to your circumstances.

Getting to know you

Your adviser aims to provide advice that suits your circumstances and is generally appropriate and relevant to you. To do this, they must first understand your financial profile.

The detailed client questionnaire (fact find) is an important document, and you should

complete it carefully, either before or during your first meeting. The more information you provide the better the advice will be.

Delivery of advice

Once you have met and determined a draft plan, your adviser will prepare a Statement of Advice (**SOA**). The SOA may be delivered via email or post, as you prefer. Your SOA contains the information needed to understand your advice and the basis on which it is made. It includes information about:

- the specific advice;
- the reasons for the specific advice;
- any fees or commissions;
- any associations or relationships that may influence the advice;
- the implementation plan; and
- any other relevant matters.

Your adviser will also provide other documents as needed. These documents may include educational material or PDS documents, as discussed above.

Record of advice

Once you have been provided with a SOA and provided there has been no change in your personal circumstances or the basis of the advice set out in the SOA, further advice may be provided in a form known as a record of advice (**ROA**).

Retention of SOA and ROA

We retain all SOAs and ROAs for at least seven years and you may request a copy of the SOA or ROA at any time within that period. This request may be verbal or in writing.

Implementation of advice

Your statement of advice will contain instructions on how the advice should be implemented. Your adviser will work with you to ensure that the advice is properly implemented.

Review of advice

Financial plans should be reviewed on at least an annual basis, if not more regularly. You should contact your adviser immediately if your circumstances change in any way, or if you believe for any reason your advice is not appropriate to you.

➤ **Commissions** paid by an insurer. Commissions will vary according to your circumstances, but will not exceed the following:

- Personal insurances: upfront commission of up to 66% of your initial annual premium and trail commission of up to 22% of your ongoing annual premium.

You and your Adviser will agree to all fees prior to any chargeable services being rendered.

If you agree to pay your Adviser directly, you will be given a written estimate of the fee before any significant work is done. You will not be charged more than this fee.

A word of warning on risk

All investments have risks. "Risk" means the value of an investment may fall, or even disappear.

Awhina Financial assumes its clients are conservative, moderate or balanced investors unless the client specifically states otherwise. If a client states otherwise, the statement will only be accepted if a reasonable financial planner would assess the client as being otherwise, having regard to income, wealth, age, work experience or academic training.

Awhina Financial adopts this conservative assumption to reduce your risk.

Awhina Financial does not recommend investments that have significant internal gearing, or that clients borrow significant amounts to acquire investments. This is unless the client understands that these significantly increase the risk that their net equity will fall, or even disappear, if the value of the investment falls.

Clients should not acquire investments other than those suited to conservative, cautious or balanced investors unless they understand and accept the risk that their equity will fall, or even disappear, if the value of the investment falls.

Can Awhina Financial operate a Managed Discretionary Account?

Awhina Financial does not allow Managed Discretionary Accounts or similar facilities. Awhina Financial regards these financial products as excessively risky and does not allow its authorised representatives to provide them to clients.

Any questions?

Please do not hesitate to contact your Financial Adviser should you have any questions about our services or how we can help improve your financial position.
